

# REGISTRY-REGISTRARS

Friendship, Cooperation, Support or  
Control?

Anna Karakhanyan

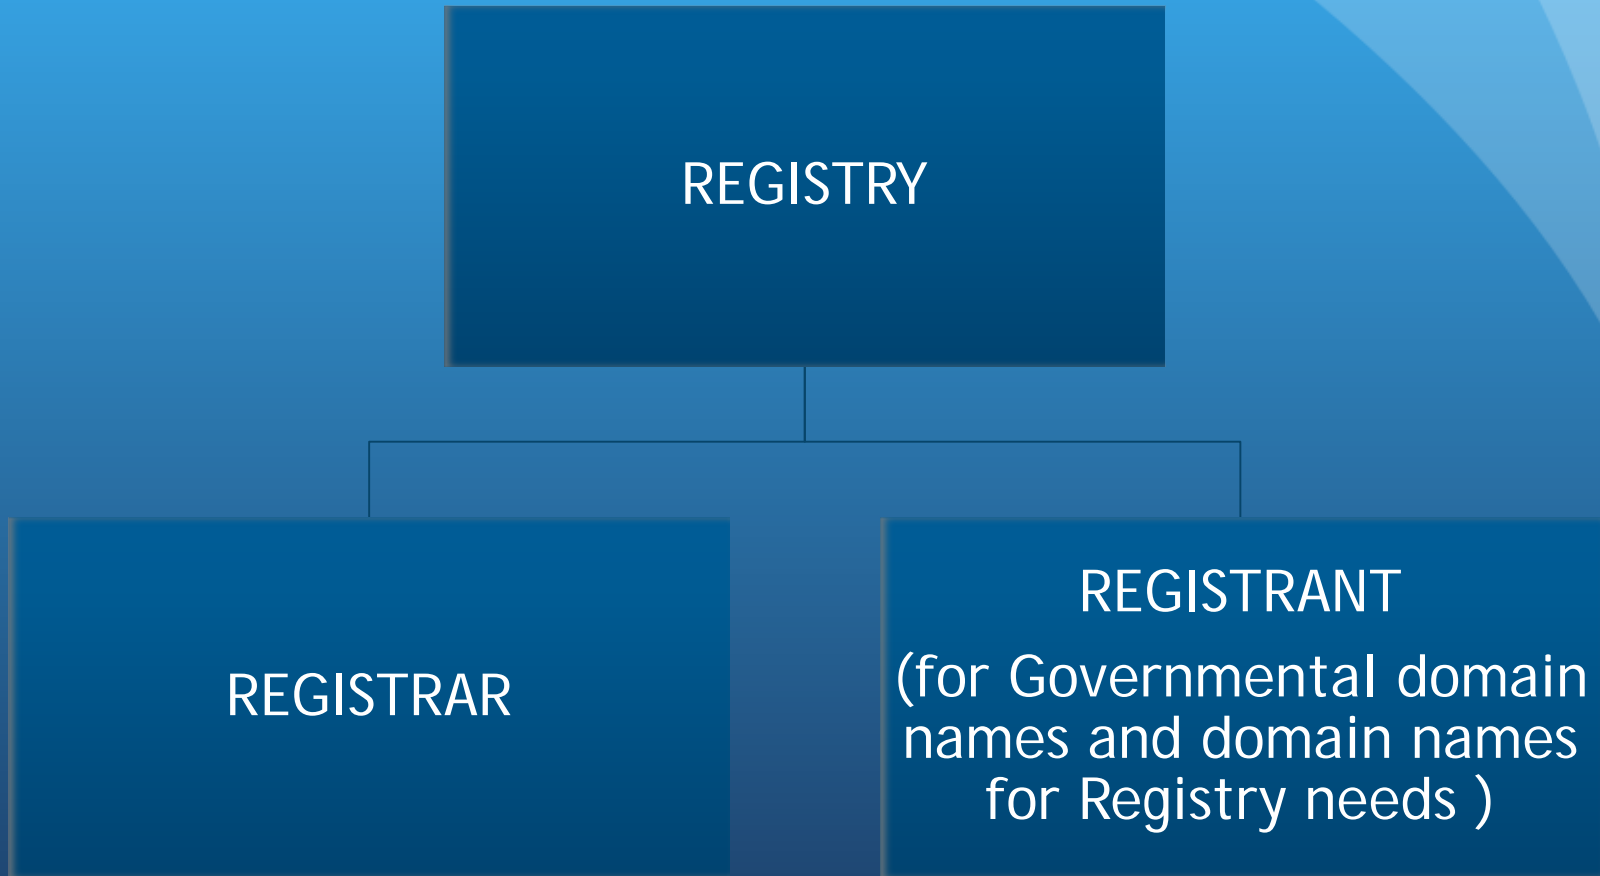

AMNIC, ISOC AM

TLDCON 2018 „Jurmala, 12-13 September, 2018

# .am and .huuj ccTLD model is REGISTRY/REGISTRAR

# For some domain names we used mixed model: REGISTRAR/REGISTRANT

# .am/.huj Registrars

.am/.huj Registrar is **a legal entity registered in the Republic of Armenia** and accredited by the Registry that provides domain name registration services in ".am" and/or ".huj" Top Level Domains in case of a contract concluded with the Registry Commercial Operator on the provision of services.

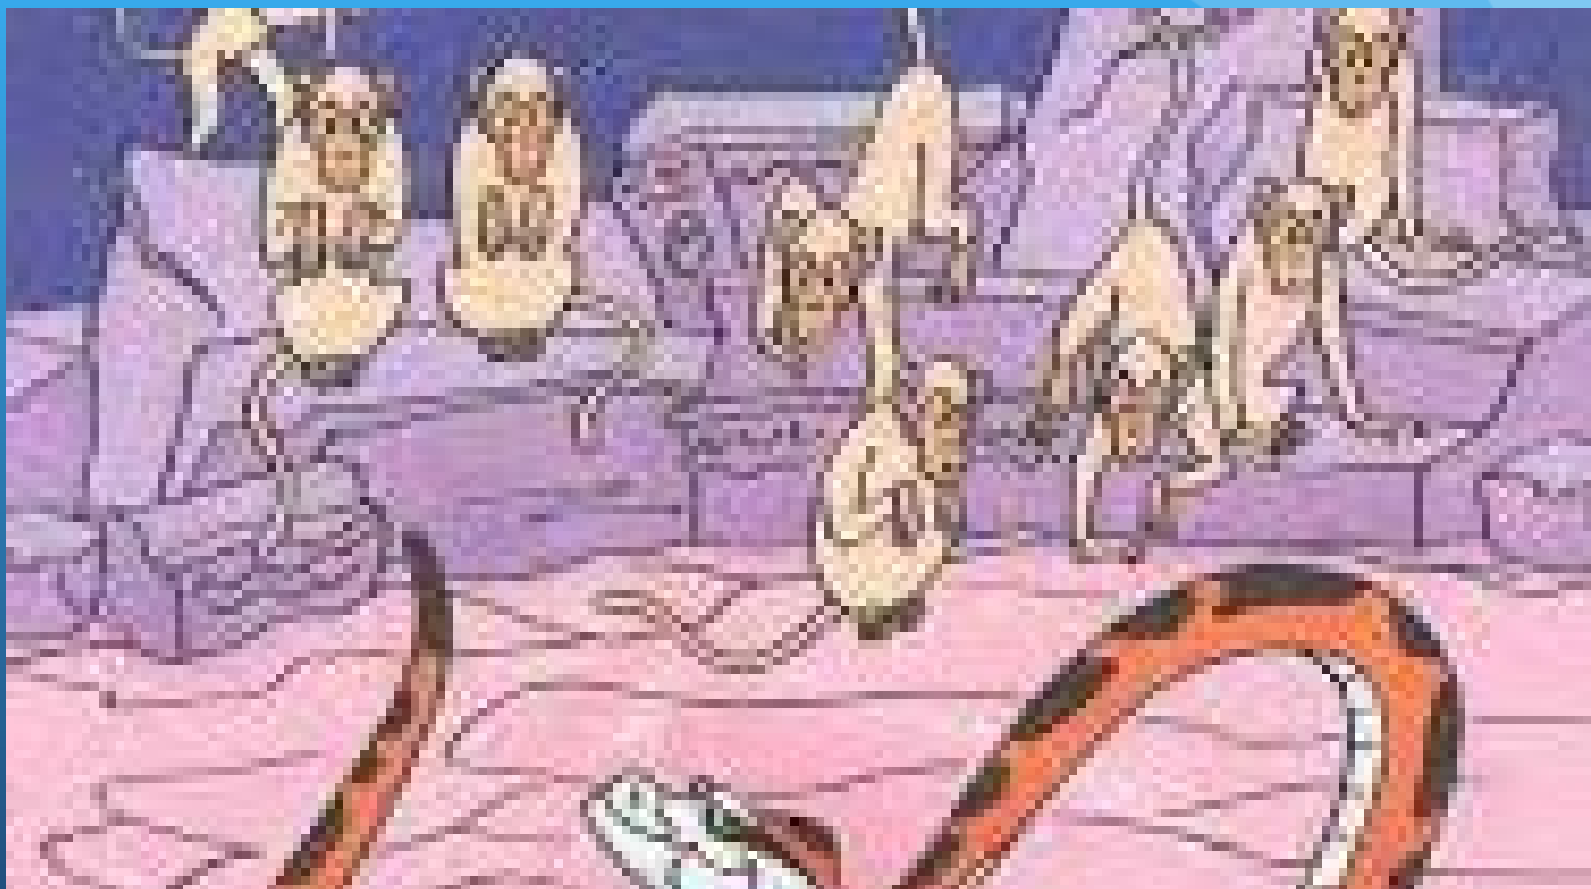

On August 1, 2016, AM NIC has ceased to provide direct domain name management to registrants. Since mentioned day you should check the list of registrars and select the one you want to work with.

# List of Registrars (25 Totals)
